Version: 1.0    Generated: 2025-08-18T12:00:00Z    Currency: USD

Total Project Cost: USD 1,954.17

**Estimate reasoning**

Image shows a fractured and heavily soot-stained toilet bowl with heat deformation and significant soot on stall partition and adjacent finishes. The toilet is non-repairable and requires full replacement. The stall partition is warped from heat and should be replaced with a high-grade partition. Heavy cleaning is required for residual soot and fire residue on tile and floor surfaces. Quantities set to one each for a single-stall restroom; selected line items come from the provided pricing catalogue.
